Heat Brings New Record For Water Consumption

The scorching heat wave that sent temperatures soaring high into the 90's for eight consecutive days and held sweltering humanity gasping until a friendly east wind brought some relief last Sunday and Monday was responsible for new records being made here for water consumption during that period.

For a full week's record a new mark was established for the period of Monday, July 14 to Sunday, July 20 when more than 23 million gallons were pumped at Haggett's pond pumping station.

A new record for a single day was established Tuesday, July 15 when 3,745,000 gallons were pumped but this was broken two days later when on Thursday, July 17, a mark of 3,821,000 gallons was reached.

Irrigation of farms in West Andover and the watering of hundreds of lawns all over town were given as the main reasons for the excessive water consumption during the torrid period.

The east wind late Sunday afternoon made temperatures drop to more normal levels which continued Monday, but the weatherman announced that this relief from the heat would be only temporary.

Final Link In Water Main To Be Started In August

New pipe for the construction of the final link in the 16-inch water line started from Haggett's pond in 1945 has arrived in town and the work of installing the new main will be started early in August when most of the members of the highway department, who started their vacations last Monday, will be back at work.

An appropriation of $55,000 was voted at the last town meeting for this final 4480 feet of pipe which will extend the new low pressure service from the end of Phillips street to the Bancroft road pumping station. Of this sum $25,000 will be raised by taxation from the 1952 levy and $30,000 will be transferred from available funds.

New Names Added To Voting Lists

Many new names have been added to the voting lists of the town in the recent sessions for registration held at the town house by the registrars of voters earlier this month.

Five more sessions will be held by the board for the convenience of those who wish to register for the state primaries to be held in September, or for those who have recently moved into town or who have had their names changed by marriage or court action.

The sessions will be held next month from 7 to 9 p.m., as follows: Aug. 5, Sacred Heart school; Aug. 6, Grange hall, West Parish; Aug. 7, Fire station, Ballardvale; Aug. 12, Peabody House, Phillips st., and from noon to 10 p.m., Aug. 15 at the town house.

Names recently added to the voting lists are:

Agnes N. Lewis, 29 Maple ave., Robert B. Maxwell, 17 Kenilworth st., Paul J. Seccareccio, 25 Lo-

Playground Youngsters Frolic At Annual Outing

Everything combined to make the annual outing of the playground children at Canobie Lake park last Tuesday a grand success.

Damp and threatening clouds early in the morning gave way about 10 o'clock to bright, clear, sunny skies as close to 400 boys and girls from the five town play centers boarded busses for the all-day frolic at the New Hampshire resort.

The youngsters, some of whom were accompanied by mothers or other adults, assembled at the playgrounds early, and after piling into the five school busses that had been donated for the occa-

Attended Royal Garden Party In London

Miss Carol Paradise, daughter of Mr. and Mrs. Scott Paradise of Hidden Field, was among those attending the royal garden party at Buckingham Palace July 17.

Miss Paradise has also been invited to rehearse with the pipe band of the London Scottish regiment.

In London since the middle of June as a member of the Winant Volunteers, (young American boys and girls who give their time to working in the East End replacing British youngsters in service) Miss Paradise is doing social work during the summer and will return to this country late in September.

P.H.S. 1927 Class Enjoyed Reunion

The 25th reunion of the Punchard high school class of 1927 proved to be an enjoyable time for members and guests who assembled at Andover Inn for dinner and an informal program in which a number of telegrams were read from those who were unable to attend.

Irving Whitcomb, president of the class, was master of ceremonies. Dr. William V. Emmons read the class prophecy and each member gave an account of himself or herself, as did members of the faculty.

Miss Margaret Scott was presented with the prize for coming the longest distance (from Philadelphia, Pa.) and a vote of thanks and appreciation was given to Miss May E. Elander for her efforts in making the reunion a success.

Besides Irving Whitcomb, president, other officers are, Dr. William V. Emmons, vice president; Richard S. Douglas, secretary, and Donald C. Bassett, treasurer.

CASTLE HILL CONCERT

The famed New Music String quartet will bring to a close its three-week period of residence at Castle Hill, the Crane estate in Ipswich on Friday and Saturday evenings, July 25 and 26, when the group will be heard in a program of music by Stanitz, Schumann and Bethoven. The weekend concert series, with other performers, will continue through Aug. 16.

The concerts Friday and Saturday of this week will be heard at 8:30 p.m., in the beautiful sunken Italian garden on the grounds of the fabulous Castle Hill estate, former home of the late Mrs. Richard T. Crane, Jr.

STOLEN TENT RETURNED

The 12x14-foot girl scout tent stolen Tuesday night from Camp Merrymeeting, the girl scout camp at Pomp's pond, was found Thursday night by camp officials not far from the pond. Theft of the tent, which bore the girl scout insignia, was reported to police who started an investigation. The scouts purchased the tent through the sale of cookies.

Social Security Payments To Be Increased In Fall

Beneficiaries in the Lawrence ea will receive higher social curity payments as a result of social security amendments ich President Truman signed o law July 18. The first increase checks will be for the nth of September delivered early October.

Miss Vose, manager of the Lawnce social security office, emsized that no one needs to ply for the increased payments. "The social security administraon is already changing the ounts," she pointed out. "We pect to get them changed in time have them in the mail Oct. 3, regular delivery date, but if in few cases we don't meet that edule we'll send the regular ck and make up the difference later check."

She pointed out that although rly every family receiving pay-nts would receive an increase, additional amount would not ays be divided among all the mbers of the family receiving nthly checks. In some cases entire increase will go to the tired worker.

Under terms of the law, most milies will get an increase of out $5; some will get less, some ll get more. A few benefits now ing paid, and most of those payle in the future, will be based earnings after 1950 instead of ter 1936. The amended law proides a new formula for deterning the amount of the payments these cases. Under it, a retired rker's monthly benefit would be % of the first $100 of his erage monthly earnings plus 15% the remainder up to $300.

Beginning Sept. 1, the new law creased to $75 a month instead $50 the amount of money a beneiary may earn and still receive monthly benefits. Self-employed ople entitled to old-age and survors insurance benefits may reeive the payments for each month the year if their net earnings ring the entire year are not over 00.

The amended law contains a ovision of special importance to lf-employed people who have retired or plan to retire during 1952. Before the passage of the amendments their earnings for the year in which an application was made could not be used to figure their old-age benefit payments. Now those self-employed people who originally applied for benefits in 1952 may re-apply at the close of the taxable year and have their 1952 earnings used in figuring their monthly benefit payments. In general, this will increase the monthly benefit payment to self-employed persons.

A similar change in the law now permits insured wage earners who retire in 1952 to have their wages for this year used immediately in figuring the amount of their benefit payments. Heretofore, it was necessary for them to come back after the end of the year in order to have all of their covered wages for 1952 included in the computation of the benefit amount.

Another amendment allows beneficiaries aged 75 or over already on the rolls to take advantage of the higher benefit payments provided under the new formula, if they have had at least a year and a half of covered work after 1950.

The amended law allows social security wage credits of $160 for each month of active military or naval service after July 24, 1947. The provision is simply an extension of the one which already gives social security wage credits to servicemen of World War II. It applies to service in the armed forces up to Jan. 1, 1954.

Of advantage to the survivors of deceased service people is a provision in the amended law extending the time for claiming a lump-sum death payment. This applies to serviceman who die abroad and are later returned to the United States for burial or reburial. Survivors who pay the burial expenses may now claim reimbursement up to two years after the reburial instead of two years after the serviceman's death.

HAS NO FUTURE

Some students declare their chief objection to history is that it has no future.

1952 POLIO PRECAUTIONS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

Seven-year-old Karen Blecha enacts 1952 polio precautions recommended by the National Foundation for Infantile Paralysis. When polio is around, the National Foundation cautions parents to watch for these signs: headache, fever, sore throat, upset stomach, tenderness and stiffness of neck and back. A person showing such symptoms should be put to bed at once, away from others. Then, call your doctor and follow his advice. If polio is diagnosed, call your local chapter of the March of Dimes for advice and assistance, including needed financial help.

Peaches Plentiful And Prices Lower

Peaches are now plentiful in Essex county and New England retail food stores as large shipments of this delicious fruit continue to arrive from Southern and Western production areas. As a result of the heavy shipment of peaches from these areas, Essex county food shoppers will find peach prices lower than they were a week ago, with the possibility of even lower prices in the weeks to come.

Miss Christine V. Shea, associate home demonstration agent of the Essex County extension service points out that peaches are going to be even more plentiful during the next couple of weeks. California has a large quantity of peaches due on eastern markets at about the same time as the southern crop will arrive. So, it is expected that there will be many more peaches around than is usual this time of the year.

That situation should be very favorable for homemakers, says Miss Shea. Peaches are an excellent summertime choice to add color and appeal to hot-weather meals. With a plentiful supply of peaches predicted, retail prices are expected to be lower, affording just about everyone the opportunity to serve peaches often in the family meals.

Peaches have a variety of uses; and they fit well into any meal of the day. They are also top choice for in-between-meal snacks. Peaches are a fair source of vitamin A; and fresh ripe peaches also have some vitamin C. Another point in their favor is that they rate low in calories, which should appeal to people on a diet.

To be sure of getting the most value for your money, select peaches carefully. Look for peaches that have a yellowish or whitish skin color. Be sure the peaches are firm and are free from blemishes or bruises. Avoid green peaches, for they won't give you the satisfaction you are looking for.

FAIR ENOUGH

The class was having a general knowledge lesson. The master turned to Jenkins, noted for the ease with which he wriggled out of tight corners.

"What is ratio?"

"Ratio," replied Jenkins, "is proportion."

"But what is proportion?"

"Why, sir, proportion is ratio."

"Well, what are ratio and proportion?"

"I can only answer one question at a time sir," replied Jenkins, with cold dignity.

PRODUCTION PROGRESS

The modern blast furnace—with its daily production of 1500 tons of iron—is a far cry from a unit of the early 18th century having a daily production of 1 to 6 tons, or a unit of the late 19th century having a daily output of 200 to 300 tons.

Political Conventions

The spotlight of publicity which has been played upon the recent convention at Chicago through television and newspaper coverage has presented a somewhat bewildering picture to the ordinary observer.

Just how much all this whoopee and high jinks influences the deliberations of the delegates is hard for him to see, yet there it was with marchers, singers, acrobats, street urchins, slogan-shouters and similar hoopla at a deliberative gathering of men and women assembled for the very serious purpose of selecting the party's nominee for the highest office in the land. It all seems to be an accepted part of a political convention no matter how useless it appears.

At sometime one of the parties will stage a convention without all this balderdash and wearisome round of sensless demonstrations. When it does it will gain a large measure of respect from many voters.

New Books

Three Lives For Elizabeth, Seifert.

Elizabeth Moss married three times — once for love, once for money and once for position. Period is the 1820's to the time just before the Civil War.

Which Grain Will Grow?, Lynde.

From an overnight stop in Colorado City, Chris Barlow extended his stay to become part of the city and active among its people. Everyday events, nostalgic to many readers.

Missing, Hostovsky.

Story of the communist coup d'etat in Prague, Paul Kral, a journalist, wanted to go to the U.S. for personal reasons. Here is told the process by which both the communists and army of military intelligence investigated him.

Prescription For Marriage, Post.

An ambitious woman directs her husband's rise in his profession only to find his personal interests claimed by another woman.

Upside Down In The Magnolia Tree, Bancroft.

Henry Dana of prominent Cambridge stock, upset the family around the turn of the century by marrying Agnes Kenny, who died at the birth of a daughter, Kathy. This is the child's story, and her friendship with Nolan, the coachman. Delightful and understanding story.

The Ben al Tiger, Hunter.

After a quarrel with his father, Simon Puttower left Devon and lived for seven years as a hunter, a colonial gentleman and a fighter in the Crimean war. Good Indian atmosphere.

SPQR, Bonner.

These letters, still to be seen on Roman property, could be applied to Lovat Fraser, secretary of the American embassy, who found himself involved with two women, communist intrigue and violence.

Shiloh, Foote.

The two-day action of the Battle of Shiloh is told from points of view of both Union and Confederate soldiers.

The Betrothed, Manzoni.

An English translation of 17th century's "I Promessi Sposi," which has been called Italy's 'Scott, Dickens and Thackeray rolled into one.'

This Crooked Way, Spencer.

A Southern story of a strong willed man who could move earth to have his way until he tried to direct and change the lives of his family.

Let It Come Down, Bowles.

An American bank worker, tired of normal, everyday living, took a position in Algiers and dropped all pre-conceived ideals and morals in order to "discover" himself.

The Secret Road, Lancaster.

Historical novel about the secret service during the American Revolution, written by Bruce Lancaster, master of historical fiction.

The Long Memory, Clewes.

A bitter story of revenge, of a man released after twenty years' imprisonment, who sets out to find the two persons whose testimony wrongly convicted him.

Housewives are being urged to save tin cans to provide tin for defense industries.

Miss Betty Buchan, former assistant editor of The Townsman, now residing in Washington, D.C., has become the first Andover girl to be selected for training in the officers' training school for the new W.A.A.C.

Sportsman Clubs Elect Svenson

Wilfred R. Svenson, 216 N. Main st., was recently elected president of the Essex County League of Sportsman's clubs, Inc., at a meeting held at the Ipswich Fish and Game Assn., Inc. There are now 22 clubs in the league.

Prior to his election Mr. Svenson served for five years as senior delegate to the league from the Andover Sportsman's club, Inc. At present he is secretary of the local club.

Mr. Svenson's son, Wilfred R. Svenson Jr., a member of the local club is now serving aboard the destroyer USS Eversole.

TV Interference

Squiggly patterns of interference in television and radar tubes can blot out as much as half of the picture. A plastics manufacturer in New York City learned the hard way how serious this interference problem can be. The U. S. Coast Guard got a court order closing his plant when they traced interference 1,000 miles away to his preform heaters. On June 30, 1952 a Federal Communications Commission order became effective against equipment that causes this interference. Under suspicion are diathermy machines, dielectric mold heaters, welding arc oscillator currents, automobile ignition systems, power plant generators, radio transmitting sets, and even the TV set itself. Preventive measures can require a complete cage of sheet metal around the equipment, with more serious cases also fitted with Monel knit mesh gaskets at the points where the cage is bolted together.

Do You Know Massachusetts?

DO YOU KNOW THAT. . . New private home building in Massachusetts during the first half of this year ran slightly ahead of that a year ago...Reports of building permits issued in 140 cities and towns, gathered by the department of labor and industries, show 9,316 new dwelling units privately financed, compared with 9,208 units in the first half of 1951...The eleven places reporting most new private dwellings in the six months this year were Springfield 431, Natick 281, Newton 258, Weymouth 230, Worcester 227, Chicopee 215, Waltham 189, Lexington 180, Boston 179, Norwood 149, Bedford 145...Permits were issued for 1,694 public housing units this year, against 3,518 in the first six months a year ago...Unit production per worker in the eastern dairy area between 1939 and 1950 increased 56% in poultry raising, 26% in tobacco, 22% in milk, 21% in feed grains and hay and 20% in truck gardening, but dropped 13% in fruit growing, U.S. department of labor reports...All New England was known as Norumbega in 1602 when Bartholomew Gosnold explored and named Cape Cod, the Elizabeth Islands and Martha's Vineyard. His reports and charts induced the Pilgrims to aim for the area "ten leagues west of Cape Cod", the Buzzards Bay region. Bad weather and fear of the shoals diverted them to the north side of the Cape.

Big Increase Seen In Free World Nickel Production

When the programs for further increases of production of nickel now under way in Canada, Cuba and elsewhere are realized, the total annual nickel production in the free world will be roughly 375,000,000 pounds, an increase of over 150,000,000 pounds, or more than 65 per cent, above the annual production of the pre-war years.

PLAYGROUND YOUNGSTERS FROLIC AT OUTING

(Continued from Page One)

square from which the trek to the park was made in a group.

Each boy and girl on arrival at the resort received tickets for various amusements and games and then at noon all sat down to enjoy the box lunches that they had brought with them. Milk was served to each child with the lunch.

Early in the afternoon all gathered in the ball park where a number of running events were held with suitable prizes of candy bars being awarded to the winners. Another round of amusements and games were enjoyed until it was near time to leave, and then the merrymakers sat down for a treat of ice cream.

The return from the park was made shortly after 4 o'clock after a very enjoyable day had been experienced by the children. Attendance records showed the following count: Central 105, Shawsheen 47, West Center 22, Indian Ridge 66, Ballardvale 95.

The entire affair was successfully conducted under the direction of Director James D. Doherty and the entire playground staff who looked after the many details that made the entire day's program so enjoyable.

A long list of field events were held for boys and girls of various age groups. The winners were as follows:

Pre-school group — 1, Jeffrey Winn, Mary Walton; 2, Susan Pimpare; 3, Eddie Smeltzer.

FINAL LINK IN WATER MAIN TO BE STARTED

(Continued from Page One)

As explained by Chairman Sidney P. White at the last town meeting, the town has spent $260,000 so far on the system and this last section would complete the job started in 1945 to give the town an improved water system.

In the past three years about 550 homes have been constructed in Andover and the draught on the system is getting heavier each year. This year it is expected that more than 100 more homes will be built here.

It is estimated that of the sum appropriated $17,557 will be needed for labor and equipment, $32,661 for material and about $3000 more for ledge excavation.

JUNIOR LEAGUE

John Murray, pitching for the Andover Junior League team at Lawrence July 17 allowed the Prospect Hill team only two hits but the 10 bases on balls he issued enabled the Lawrence team to win 4-2 over the local boys. Horace Coco, the Lawrence twirler, gave up only three hits.

The South Lawrence East team scored two runs in the last of the seventh to win 4 — 3 over the Andover Junior Leaguers at Lawrence Friday night. The locals were leading 3 — 2 going into this frame but a single, a triple and an error gave the host team two runs and the game.

In a close game that went into the sixth inning before a run was scored the North Andover team in the Junior League topped Andover 2 — 0 on the former's grounds Tuesday night due largely to the no-hit, no-run pitching performance of Bill Roche, Johnson high school student who was on the mound for the winners. Henrich, pitching for Andover, allowed but five hits and walked three but a triple and a single in the sixth opened the way for the two runs scored against him.

Little League

Held to three hits the Andover Cardinals lost a 1 — 0 decision to the Giants Friday night on the local playstead in a game that went an extra seventh inning. Bob Shaughnessey, the local pitcher, fanned 10 while allowing seven hits.

The Andover Cardinals, aided by errors, bases on balls and two wild pitches scored an easy 10 — 0 win over the Methuen Cubs at the latter's grounds Sunday night. Bill McCullom, pitching for Andover, gave up but three hits and drove in two runs with a double and a single.

The Andover Cardinals staged a five-run first inning Tuesday night against the Lawrence Dodgers at O'Sullivan park and with this lead romped home with a 7 — 2 victory. The Dodgers threatened in the first by scoring two runs but thereafter Phil Colquhoun held them under control, striking out nine during the six innings.

Three divisional All Star clubs will represent Greater Lawrence to open the nation-wide Little League playoffs. The divisions are, Northern, Central and Southern. In the latter division the following Andover Cardinals have been selected: Glenn Williams 3b., John Giovinco 1b., Bill Cronin of., and alternate Bill McCullom, of and p. The elimination games will open Aug. 3.

VITAL NEED TODAY

A civil service system that will protect the competent, without being a refuge for the incompetent, is a vital need today.

TIME TO PAY UP

A stout woman, wedged into a crowded streetcar, had difficulty getting her fare out of the pocket of her tightly buttoned jacket. "Madam," said the man next to her, during her fruitless struggles, "let me pay your fare."

She indignantly protested.

"Please let me pay your fare," he persisted. "You have already unbuttoned my suspenders three times trying to get into your pocket."

OLD BULBS CAUSE TV INTERFERENCE

Have you ever considered that an old light bulb may be causing television interference?

It's possible because many of the filament lamps of early manufacture are still in use today—often in attics, fruit closets and basements.

According to John H. Campbell, General Electric illuminating engineer, the interference appears as a horizontal pattern in one to three places on the screen.

These early bulbs made before 1925 with the straight wire filament are usually clear glass and quickly identified by their straight-sided, elongated lines as pictured at the top above.

For more than twice as much light and a great deal more eye comfort, simply replace the old bulbs in unshielded fixtures with the 50-GA decorative bulb shown in the lower photograph above. This newer bulb shaped like an inverted mushroom, not only improves appearanc of fixtures but does not interfere with television.

Diesel locomotives, on the average, carry a ton of freight 500 miles on a gallon of fuel oil.

Maple Wilt Came Early This Year

Maple wilt is early and severe this year. Normally, it doesn't strike until the hot, dry days of mid August.

Now, whole branches of sugar and Norway maples are suddenly wilting and dying, according to Nestor E. Caroselli, associate pathologist of the Bartlett Tree Research Laboratories.

This is a tree's distress signal that it has the internal fungus infection, called Verticillium wilt. The fungus lives harmlessly in the soil. When it enters a tree or plant – such as tomatoes, potatoes or egg plant – it causes a diseased condition.

A tree can be infected by the fungus spores through abrasion in twigs and branches or wounds in the trunk and roots. The disease can also be transmitted from tree to tree by root grafts or pruning saws.

Sometimes the entire tree is affected at once. More often, it is a limb or two in a sunny exposed spot that first comes down with the infection.

Tests by Mr. Caroselli show that weakened trees are most susceptible; that maples on lawns and along streets readily contract the disease; that trees growing in forests rarely get it; and that of all maples the red maple has the greatest immunity to the disease.

This is what the disease does: (1) clogs the little pipelines of the vascular system, and (2) produces a toxin which is responsible for the wilt.

The buildup of the fungus causes a greenish discoloration of the sapwood. You can detect it by cutting diagonally into an infected twig. This discoloration may occur as long streaks up a trunk or down a branch. Or it may be localized in a spot at the base of the trunk or base of a limb.

The fungus debilitates the tree. This, together with the loss of the use of leaves of a wilted branch due to the toxins, may cause a tree to retrogress so that it will die within a few years. Sometimes, death can be quite sudden, occuring in a single season.

In severely infected trees little can be done in the way of treatment. When individual branches are infected, prune out and burn them. Then feed the tree, preferably with a food containing nitrogen in a form that becomes slowly available to the tree as it needs it.

Useful Present

With a haughty air the elder woman entered the jeweler's sh and settled herself in a chair. Th she inspected the youthful assista through her lorgnette and said, co ly: "I want a present for an ea but it must be inexpensive."

The young man's desire to h went several steps too far as suggested, briefly: "Well, mada what about a can of metal polish clean his coronet with?"

Handtub Entered In Coming Musters

The handtub "Merrimack", manned by the Andover Handtub association members will participate in the firemen's muster to be held at North Andover Saturday, Aug. 9.

The local tub, which has made good showings in earlier Class B events this year, is also entered in the muster to be held at Marblehead Saturday, Aug. 30.

The association is looking for a few more stalwart members who can go out of town occasionally and work on the pumps in these musters. Anyone interested can join. It is not necessary to be a member of the fire department in order to enroll.

Information For Veterans

Q—Am I entitled to a permanent insurance plan? I enlisted in the army after June 27, 1950 and am being paid compensation for a service-connected disability I received in Europe.

A—The term "disabled Korean veterans" includes all veterans with active duty since June 27, 1950 and who were disabled after that date any place in the world—right here in the U.S., in Korea, in Europe, in the Far East, or any place at all.

Q—I am a World War II veteran who went back in the service after the outbreak of the Korean conflict, and am now discharged. I wonder if I'm entitled to some more GI training.

A—Even though you trained under earlier veteran's training laws, the WW II GI Bill or Public Laws 16 or 894 for the disabled, you may get up to 48 months, minus whatever time you have spent in training under those earlier programs.

Pomp's Lifeguards Plan Water Show

With Pomp's pond rolling up the season's high total attendance of 9115 during the past torrid week the life guards at the swimming beach are preparing to stage a demonstration of water safety Sunday at 2 p.m.

Special presentations are also being prepared for the annual water carnival to be held late next month which will bring all seasonal activities at the pond to a close. This annual water spectacle always draws a large attendance to the beach and this year's display is expected to be as attractive as any ever before presented.

As an extra safety precaution chemicals have been added to the pond under the direction of Ed Doherty, the new assistant director of recreation.

Patrons of the beach are also notified that there has been a change in the bus schedule, the last bus from the pond to Shawsheen square now leaving at 4 p.m., instead of 4:30 as before.

The Red Cross water safety instructors at the pond wish to give the residents of the town the following rules for safe swimming:

Swim only at places designated for bathing and supervised by qualified lifeguards.

Know the depth of the water in the area you are swimming.

Before diving make sure that the water is deep enough and free from obstructions.

Enter water, if it is cool, gradually. The sudden shock of cold water may result in numbness and difficult breathing.

Stay within your swimming capacities — don't try to demonstrate abilities you do not possess.

Wait for an hour to an hour and a half after a meal before swimming.

Avoid horse play in the water — your companions may not be able to swim as well as you.

The Red Cross estimates that over 6000 people will drown this year. Make sure you are not one of that number by following the above rules and also the directions of the life guards at the beaches you may visit.

HASELTON TO HEAD BETTER FISHING RODEO

Edgar Haselton, president of the Andover Sportsman's club has been named general chairman of the 1952 Boy and Girl better fishing rodeo which will be held Aug. 23 on a national scale.

This action also places the town of Andover on the 'better fishing' roster and earmark a set of awards to be made in connection with this national fishing program for junior citizens.

Find Juveniles In Stolen Auto

Observing an automobile being operated in an erratic manner on Main street about 4 a.m., Monday, Officers William Tammany and Henry E. Smith stopped the occupants, who happened to be two juveniles from Westville, N.H.

Further investigation, police reported, showed that the car had been taken from the father of one of the boys. He was notified and came to Andover for the car. The two lads were brought to court at Lawrence and their cases were continued until this week's session of juvenile court.

Republican Town Committee Meets

The Andover Republican Town committee met at the Memorial Hall library Monday evening when George B. Westhaver, chairman of the rules committee presented a set of rules which was unanimously adopted.

Alexander D. Gibson, vice chairmen of the Town committee, announced in the absence of Chairman Robert F. MacMackin that the latter had appointed to the registration committee the following precinct chairmen: Pct. 1, Barbara A. Loomer; Pct. 2, John M. Caldwell; Pct. 3, Thomas V. Sullivan; Pct. 4, Rita T. Dolan; Pct. 5, Randolph H. Perry; Pct. 6, Emily Bullock.

The following associate members have been appointed to the town committee: Mrs. Ruth P. Barker, Donald S. Burns, Miss Olive I. Butler, Mrs. Elizabeth G. Churchchill, John Robert Creamer, John M. Erving Jr., Mrs. Edith S. Fieldhouse, Paul C. Gibbons, Richard J. Himmer, Mrs. Irmgard F. Hird, Mrs. Elizabeth B. Kent, Louis Mirisola, Lee E. Noyes, Miss May L. Noyes, Mrs. Evelyn E. Perry, Mrs. Virginia G. Smith, Mrs. Ruth A. Sutton, Donald G. Thompson, Mrs. Frances Thompson, Vincent Treanor and Frank T. Watson.

Plans for the fall campaign were discussed.
